

Portway Dental Practice – Private Treatment Fees

We do not offer different ‘levels’ of care, with associated fee structures. For us, only one level of care is appropriate and that is the best that we can do.

Following a comprehensive examination a detailed written treatment plan will be compiled for each course of treatment, based upon individual requirements, circumstances and priorities.

It is difficult, therefore, to produce a definitive list of treatment fees for patients to refer to.

However, we have produced the following guide to treatment costs that is based upon our hourly rate of £376, plus technician’s fees where appropriate.

Treatment type	Private Fees	Portway Dental Care
Examination, diagnosis and treatment plan	New patient £62 (new patient package, including x-rays, £77) Regular patient £47	Excluded Included
